INSULATION & THERMAL MATERIALS

COTTON TAPE (Non Adhesive) **(Made In China)**

No.	Stock Code	Size (INCH)	Size (MM)	Length (Meter)	Price/Coil (RM)
1	TCT13	½″	13	20	
2	TCT19	¾″	19	20	
3	TCT25	1″	25	20	
4	TCT38	1 ½″	38	20	
5	TCT50	2″	50	20	

* Applications: It is mainly used for winding and strapping of coils, motors and transformers.

FIBRE GLASS TAPE (Non Adhesive) **Class H (Made In China)**

No.	Stock Code	Size (INCH)	Size (MM)	Length (Meter)	Price/Coil (RM)
1	TFG13	½″	13	30	
2	TFG20	¾″	20	30	
3	TFG25	1″	25	30	

* Fibre Glass Tape is woven by electrical glass E-Glass yarns. It has high tensile strength and flame resistance. It is also characterized by good resistance to chemical and high temperature.

* Applications: It is suitable for fire-proof cable wrapping and insulating of electric machineries such as arc welder, electric motor and dry-tape transformer.
