ELECTRIC MOTOR PARTS & ACCESSORIES

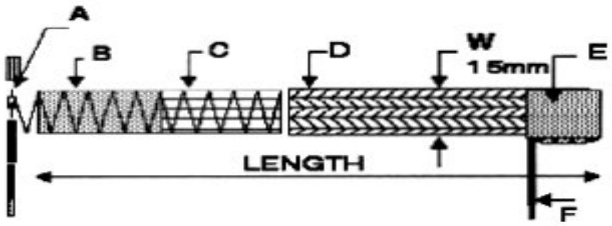

ANTI CONDENSATION HEATER TAPES (Made In England)

Flexible Motor Heating Tape, 230V

No.	Stock Code	Length (IN)	Length (MM)	Volts	Watts	Price/Pc (RM)
1	THT2-0305025	12″	305	230V	25W	
2	THT2-0432025	17″	432	230V	25W	
3	THT2-0686021	27″	686	230V	21W	
4	THT2-0686040	27″	686	230V	40W	
5	THT2-0762026	30″	762	230V	26W	
6	THT2-1016042	40″	1016	230V	42W	
7	THT2-1067054	42″	1067	230V	54W	
8	THT2-1473065	58″	1473	230V	65W	
9	THT2-1702099	67″	1702	230V	99W	
10	THT2-1850100	73″	1850	230V	100W	

* These heater tapes provide protection against moisture / condensation within rotating electrical equipment.
* Applications: Typical application would be electric motors, generators and alternators that operate in damp or wet conditions.

A. High quality dip soldered joint.

B. 80/20 Ni Cr or 56/44 heating element. Glass fibre tape carrier.

C. Polyester backed adhesive tape, thermosetting adhesive.

D. Glass fibre braid insulation.

E. Acrylic adhesive backed glass fibre tape insulation and cold leads reinforcement. F. 500mm ColdLeads 19/0.15 ETFE(Tefzel) insulated equipment wire.
